Bizarre Story Being Told To
Jury In Trial At Wash-

(International News Service)
WASHINGTON, May 12.—Two
new figures, Max Hassell, and
Max Greenberg, liquor runners
and gangsters who were recently
"bumped off," were named to-
day as members of the gang
which kidnaped the Lindbergh
baby by Gaston B. Means, as
the ponderous convict-spy-de-
fendant resumed his bizarre tes-
timony in district supreme court
today.

Means and Norman T. Whitaker,
described as "The Fox," are on trial
for attempting to swindle Mrs. Eva-
lyn Walsh McLean out of \$35,000,
after Means had already mulcted
her out of \$104,000. Means is now
serving 15 years for that.

Both Dead.

Both Hassell and Greenberg were
so-called "big shots" in the racket-
eering underworld of New Jersey and
eastern Pennsylvania. They were
recently shot to death in a typical
gangland killing in a hotel in Eliza-
beth, N. J.

has named in his rambling account
of the kidnaping. Previously he

ECONOMY WILL HIT JURY COMMISSIONERS

Among the very few economy bills
which were passed by the recent
session of the General Assembly are
two presented by Representative
William McElwee Jr., of the second
district of Lawrence county. The
two bills, one of which has been
signed by Governor Pinchot, and
the other will probably be, limit the
number of days for which jury com-
missioners and their clerk can be
paid to 65 days per year.

Previously jury commissioners and
their clerk were paid \$6.00 per day
for each day worked in the year.
In some counties the amounts ran
higher than others. The total for
Lawrence county for 1932 was ap-
proximately \$2,900. Under the Mc-
Elwee acts the maximum total which
they can draw will be \$390 each, or
a total of \$1,170.

The fate of the district attorney
salary adjuster is not known yet.
Mr. McElwee presented a bill put-
ting district attorneys in counties
the size of Lawrence on a salary be-
tween \$3,000 and \$3,500. This was
to offset the present law, which
raises the Lawrence county salary
to \$3,000 next year, because the po-
pulation is over 90,000.

Following the McElwee bill an-
other bill was put in which keeps
the salary at the same scale it now
is, \$3,150. This bill was passed and
is on the desk of Governor Pinchot.

Money

(International News Service)
PHILADELPHIA, May 12.—A
diminutive unemployed truck driver,
accused of demanding \$75,000 from
the Pennsylvania railroad on threats
of blowing up its passenger trains,
was in custody of detectives today.

Detectives pounced on the man,
who said he was James Vanderslice,
31, when he reached into a rumble
seat of an auto for a suitcase he be-
lieved contained the money. He
carried a loaded gun and a black-
jack, police said.

Vanderslice, according to detec-
tives, had sent six notes to railroad
officials. They were printed with
lead pencil on cheap white paper
and directed that answers be in-
serted in newspaper personal col-
umns. Instructions were carried
out explicitly under police super-
vision and Vanderslice was arrested
when he grabbed the suitcase in
which the note writer had directed
the money be placed.

HEAVY PENALTY
FACED BY CULPRIT

To thrill-loving New Castle youths
Postmaster Lake S. McNab address-
ed two timely warnings today:

First, that dropping firecrackers in
May aren't exactly lawful, and sec-
ond, that dropping mail boxes is an-
other thing but what Uncle Sam will tol-
erate.

Postmaster MacNab issued the
stern reminder today, following the
discovery yesterday afternoon of a
three-inch firecracker in a street
box at the corner of Butler avenue
and Ray street. One letter was
somewhat mutilated.

"It was several years ago that cig-
arets were dropped into the boxes,"
said the postmaster, sharply, "and
now it's firecrackers. Such a thing
won't be excused from our minds
until we investigate it far enough
to learn the perpetrator."

Postmaster MacNab said federal
investigators will be notified. He in-
dicated the city's police finger-
printing detector may be employed
to determine who handled it.

Post office officials detained the
damaged letter here until an of-
ficial explanation can be made. It
will then be sent on its way.

(International News Service)

A menacing situation sud-
denly arose in Europe today,
due to announcement by the
Hitler administration that
Germany intends to build up
great armaments at once if
the Geneva disarmament
conference fails, which
seems probable.

Joseph Paul-Boncour, French for-
eign minister, declared France, in
such a case, would insist upon ap-
plication of the Versailles treaty,
this might mean reoccupation by
allied armies of the west bank of
the Rhine.

In London Lord Hailsham, minis-
ter for war, voiced a similar atti-
tude.

Declarations by Allied statesmen
stirred anger in Berlin where it
was declared France was plotting
to violate the Versailles treaty and
provoke war.

The Geneva disarmament con-
ference, meanwhile, remained in
deadlock over Germany's insistence
upon complete arms equality and
opposition to British limitation
proposals.

According to pictures received by

aged by a terrific wind storm which
swept the city last Tuesday. It is
claimed that a million dollars in
damage was done by the storm,
which blew roofs off factory build-

It looked good to see the sun shin-

have felt disgruntled at the rainy
weather during the past few days,
should remember that rain is com-

Attorney General In Investigation

Transactions Of Former Secretary May Be Investigated By Governor

TAX DEDUCTION UNDER SCRUTINY

(International News Service)
WASHINGTON, May 12.—Income taxes of Andrew W. Mellon, former secretary of the treasury and ambassador to Great Britain, are under investigation by the department of justice, Attorney General Cummings admitted today.

This investigation resulted from charges of Rep. McFadden (R) of Pennsylvania, that Mellon had evaded taxes, and from reports received by the department from other sources.

Probe Refunds Also.

Official actions of Secretary Mellon and other high treasury officials in making large tax refunds also are under investigation by the department. This is in response to a senatorial resolution which followed a suit entered in District of Columbia courts by Davis Olson against Mellon, former Secretary Ogden L. Mills and other officials in which a claim of illegal refunds was made.

Referring to Mellon's personal taxes, Cummings declared the charges are "serious," and that a thorough investigation will be made. He had not determined the exact set-up of the investigating machinery, but indicated it would not be conducted by the special intelligence unit of the internal revenue bureau which ordinarily would conduct that end of probe.

Will Investigate.

Cummings said that it is the policy of the department to investigate any case where offense against federal statutes has been charged and where the complaint has a substantial basis.

The charges were contained in a letter sent to David Burnett, commissioner of internal revenue, on April 14, last, by David A. Olson, which McFadden had inserted in the Congressional Record.

In the letter Olson charged that Mellon in 1931 sold 60,000 shares of stock of Western Public Service Co., showing a loss of \$1,000,000 and 125,000 shares of Pittsburgh Coal Co. stock showing a loss of \$5,700,000. This total loss of \$6,700,000 was deducted from income tax purposes, Olson charged. He said the stock was repurchased in 1932, 31 days after the "presumed sale."

Olson said both companies were controlled by Mellon and his associates.

"Accordingly, in my opinion, the loss deducted on the income tax return is not a proper deduction," Olson wrote.

"A detailed examination by your office will unquestionably reveal that the transactions were not bona fide sales and the deductions were illegal. These transactions appeared to have accomplished the fraudulent withholding of income taxes from the government."

Washington, May 12.—Former secretary of the treasury, Andrew W. Mellon, welcomes a thoroughly impartial investigation of his income tax reports, Senator Reed (R) of Pennsylvania, declared here today.

"Not as Mellon's lawyer but as Mr. Mellon's friend, and based upon conversations I had with Mr. Mellon on the McFadden charges in the house, I am convinced that the charges are absolutely without foundation," Reed said.

"As Mr. Mellon's friend, I welcome an investigation by an impartial tribunal and I am sure that Mr. Mellon also welcomes the investigation."

There was quite a noticeable fog along the highways in the lowlands last night, motorists report.

proceeds to rearm, foreign minister Joseph Paul-Boncour declared today.

Paul-Boncour expressed keen gratification over the statement of Viscount Hailsham, British secretary of state for war, who declared Germany would be liable to sanctions if it persisted in its intention to rearm.

"I appreciate the stand taken by Great Britain on the disarmament question, particularly regarding Germany," Paul-Boncour said.

"This stand is similar to that of France. Wrecking the disarmament conference will throw everything back to the treaty of Versailles, which must be applied."

France Accused

Berlin, May 12.—By refusing Germany arms equality, France is attempting to sabotage the disarmament conference "for selfish reasons," an obviously inspired statement circulated in political circles charged today.

"France," the statement said, "is assuming a terrific responsibility before the world by forcing decisions at Geneva, thereby attempting to veil her intention of sabotaging real disarmament for selfish reasons."

marchers over leadership. At the same time, intimations that Emanuel Levin, leader of one group of marchers and a member of the Communist workers' ex-service men's league, would be deposed from his position of authority among the marchers, were given by police and other officials. Such a move on the part of authorities was calculated to go a long way toward composing the differences between the factions.

Pending peaceable adjustment of leadership, the so-called "insurgent" group of marchers who have refused to enter the Fort Hunt, Va., "bonus convention camp" provided by the administration, were encamped on private property in the district. Police reiterated in their earlier orders for the men to go to Fort Hunt or leave the district last night.

Indications were that all the marchers would be assembled at Fort Hunt by tomorrow, the date set for the administration sanctioned "convention" scheduled to last through next Thursday.

However, Emmanuel Otkits, clerk in the Star Shoe Shine parlor, told of an alleged attempt he made to short change him just before he was arrested. The mayor sentenced him to pay \$25 fine or spend 30 days in the county jail. He immediately got in touch with friends in Akron in an attempt to get the money to pay his fine.

Lewis, who was lodged in the city jail by the state police, who had him in custody, will be charged with larceny by trick by the state police before an alderman or justice of the peace. They will also make a similar charge against Smith, as the activities of both were largely outside the city.

BUSINESS REPORTS ARE ENCOURAGING

(Continued From Page One)
pare present scales with those of the "prosperity era".

Steel Mills Assured
Local business figures view with high optimism the unfilled steel tonnage gain reported by the United States Steel Corporation for the month of April, and the 10 per cent increase in telegraph traffic announced by officials of the Western Union and Postal Telegraph. There have been definite assurance, according to local steel men, that the district mills are to benefit appreciably in the 75,000 tons of new business to be let in the country.

Robert Harlan, secretary of the Allegheny regional advisory board, declared that the railroad industry is experiencing its brightest period in many months.

Promising Outlook
Reports that the Appalachian Coals, Inc., newly created central sales agency of coal operators in four states of the New England and southern part of the country, has a "most promising outlook for the first three months of its existence" proved encouraging to western Pennsylvania mine owners. District coal operators showed interest in the report because a similar organization to service local mines is planned.

Signs of definite improvement have been noted in all departments of the glass industry.

MEANS BLAMES TWO DEAD MEN AS KIDNAPING PAIR

(Continued From Page One)
home of Dwight Morrow, father-in-law of Col. Charles A. Lindbergh, was "the skirt" who tipped off the gang. She is also dead and thus unable to controvert Means' weird tale. The others he has named are "Irving Penton" and "Wellington Henderson," the latter described as a Detroit communist. They have never been more completely identified.

Means said Henderson directed Greenberg and Halsell as to their procedure in the kidnaping, and that "connections" of the two rum runners actually carried it out.

MISS GLADYS RICH HONORED AT DINNER

A most delightful social affair of Thursday evening was the dinner party held in The Castleton by teachers of the local musical department in honor of Miss Gladys Rich who has been supervisor of vocal music in the public schools since 1928.

A delicious menu was served at 7 o'clock at tables beautifully appointed. Places were marked for thirty-seven and special guests who participated included Dr. and Mrs. C. C. Green, and the principals of the various schools.

In presenting Miss Rich with a handsome desk set, a clever playlet entitled "We Won't Tell" written by the Misses Thelma Gibbons and Eva Coulter, was given. Those in character parts included the following: William Tell, Mary Elizabeth Gibbons; his son, Ruth Weir; Arnold, (the lover, Helen Allen; Matilda, (the heroine), Margaret Preston; the mayor, Sharrak Rice; Mrs. Tell, Patricia Owens; voters, Georgiana McNeese and Emma Gibbons.

At the end of the act, William Tell rushed the ballot box to Miss Jane Kyle who in turn requested the services of the honored one in revealing its contents.

Deep appreciation was expressed for the splendid work accomplished by Miss Rich and regret at her departure as supervisor.

The balance of the evening was devoted to bridge, the prize for high honors being awarded to Helen Allen.

BAPTIST WOMEN ENJOY BANQUET

Three hundred and fifty-seven women and girls enjoyed the annual mother-daughter banquet of the First Baptist church Thursday evening in the church dining room, with Mrs. Walter Russell as general chairman.

Miss Verlee Armstrong was in charge of the decorations and the dining room was a bower of beauty, with lilacs, violets and tulips artfully used on the tables and clever favors marking each place.

Mrs. C. H. Heaton asked the invocation and the group joined in singing before they sat down to dine. When the sumptuous menu had been served the women went to the church auditorium, where Mrs. Stanley Reese led in a period of pep singing, with Mrs. Henry Brenner at the piano.

The program was then presented and included a piano trio by the three Black sisters; a solo by little Frances Cook, accompanied by her mother, Mrs. Harry Cook; a number of readings by Katherine Johnson, who responded to a number of envelopes, and cello numbers, "Bereave" by Godard and "Misty Lake a Rose" by Nevin, were played by Virginia Callahan, accompanied by her mother, Mrs. S. J. Callahan.

The program concluded with a clever play, "Betty's Attitude," directed by Mrs. Mary Landis. The story depicted the mother and daughter of 1812, 1890, 1900 and 1933, with the differences of attitudes. Those taking part were Mrs. Parthena Heath, Thelma Heath, Mrs. Mabel Truby, Katherine Russler, Helen Garrett, Genevieve Schugars, Mildred Carson and Jean Remley.

All Of Us

BY MARSHALL MASLIN

THE OYSTER, THE PEARL

I saw a curious thing in the window of a jewelry store.

A glass jar filled with a clear white liquor. . . In the liquid, nearly filling the jar, a grayish-yellow, flabby mass of something.

In the center of the mass a shining pink and silver bit of loveliness.

An oyster and a pearl.

It gave a fellow almost a physical shock of surprise to find that beauty centered in that repulsive ugliness, in that dead and clammy nest. It was impossible to believe almost that so much had come from so little, that this corruptible thing could create that gloriously lovely object. . . But there they were, in the jar, before my staring eyes.

And yet it was not so strange.

It happens.

There are men who despise the crowd. They dislike human beings, and shrink from contact with human beings. They see in the great mass of us nothing but meanness and selfishness and greedy avarice and callous disregard for all that is good.

They make a care against us that is sometimes hard to overthrow. . . But out of us, in our higher moments, comes sweetness and beauty, and we burn with a gem-like flame that is fairer than all the jewels of the world.

A life may seem flabby and repulsive, a sluggish crawling from anonymous birth to unregarded death. Commonplace and unworthy and miserable. But in that life, for all we know, a pearl may be born. Out of life that few may notice may come strong patience, loving sacrifice, daring effort, flaming accomplishment.

That happens more often than we know. We are keenly aware of ourselves, of our own values and our deserts, but we too often are sadly blind to what is happening around us in the drifting currents, in the slow backwaters of our lives. We see the oyster, but we miss the pearl.

Just as I, at first, saw only the flabby flesh of the creature in the jar and failed to see the quiet glory of that living pearl. And I said to myself, "Hereafter, look about you and see the beauty, see the better part of men."

GETTING MARRIED NOW

HARD times appear to have considerably reduced the number of marriages. Many prudent young people shrink from accepting these responsibilities in times like these. But now that business indications have taken a decided upturn, now that prices are rising and a new wave of confidence is felt, one can expect a good number of June weddings this year. Little Cupid, who had been looking sad, shows signs of cheering up.

How far is it wise and prudent for young people to marry, at times when business and working conditions are still somewhat uncertain? They should not usually undertake it at any time, unless one of them has a regular job, unless they have some reserve of savings, or unless they are sure of some kind of help in emergencies.

Marriages postponed too long however, often fail to come out so well. It is a natural thing for young people to marry at a fairly early age, and conditions are most favorable then for developing loyal attachment and bringing up a healthy family.

They do well to take the advice of parents and other older friends.

It is amazing how some youngsters will rush into matrimony at very early ages, without any idea where the money is coming from for their support, or for the children that may come. They don't seem to worry more about the future than do the birds building their nests.

But when industrious young folks marry, they have the feeling that somehow the way will open for them to make good.

THE MOST EXPENSIVE SESSION ON RECORD

The Philadelphia Inquirer is scarcely complimentary as to the session of the state legislature which has just been concluded. In discussing the session that paper says editorially:

The fiscal authorities of the Commonwealth of Pennsylvania are of the opinion that the 1933 meeting of the General Assembly will cost the taxpayers of the state a million and a quarter dollars. When it began it was announced that there would be a drive to lessen costs by saving legislative time, reducing the number of employees and eliminating expensive supplies. But already the figures of the Auditor General's department show that nearly a million dollars has been paid out. The printing bill, yet to come, is estimated at about \$180,000. In previous sessions that has run from \$100,000 to \$150,000. There are many, many other items to be added. All concerned agree that it will prove the most expensive on record.

It will be galling news to citizens to know that the least competent body we have had in Harrisburg in many decades is also going to be the most costly. The legislative journal is filled with long-winded speeches and the printers have been kept busy with botched bills which have had to be revised and changed and reprinted many times. And it is this high-priced body that evaded its solemn duty by failing to make proper provision for the jobless millions of the Commonwealth. It has failed so signally that it is almost certain we shall have to have an extra session which will probably cost the taxpayers another half a million dollars.

The members were in such a hurry to get home that they shut their desks and ran to catch trains in spite of the fact that their work was unfinished. But a day of reckoning is coming; and if the voters fail to retire these misrepresentatives for good they will have only themselves to blame.

MILLIONS FOR SLUMS

There is more talk, of a practical nature, about slum elimination. It proposes a combination of relief work, business revival and scientific construction for the future. This might be the salvation of industrial cities.

Discussion centers for the present in the "American Ruhr," the great, densely populated manufacturing region stretching from Pittsburgh to Detroit, containing many cities. It has been harder hit by the depression than any other area in the country. Its large cities are cursed by slums and other blighted districts. If the cities are to survive as places for large aggregations of human beings to live, work and play, in a state of civilization for which the world is ready, there will have to be a good deal of rebuilding. And this is a good time for it. Nothing helps more to revive business than construction work.

Cleveland has her plans farther advanced and her forces better organized than any other community so far. She is submitting a huge pioneer project of this sort to the government, hoping for an R. F. C. loan of several millions to start with. It is suggested that \$300,000,000 could be profitably spent on such work in western Pennsylvania, Ohio and southern Michigan.

If this work once starts, there will soon be plenty of other applicants.

FIGHTING RACKETEERS

Attorney General Cummings is reported to be studying the possibility of getting additional legislation under which the Department of Justice could set to work to abolish racketeering in American cities.

Under present laws, about the only way in which federal authorities can both the racketeers is to prosecute them for failing to pay their income taxes or for interfering with interstate commerce. It is to be hoped that some code can be devised whereby a straight-out offensive can be undertaken. and it is likewise to be hoped that such an offensive will be determined and energetic.

In all too many instances state and city authorities have demonstrated that they either will not or cannot make any sort of fight against racketeers. If Uncle Sam can find some way of getting into the fight, more power to his elbow.

THE DEMAND FOR AUTOS

The increase in American automobile production recorded in April is one of the most encouraging facts on the whole industrial horizon.

To begin with, it is the first genuine upturn recorded by the automobile industry since the depression began.

Secondly, it has come in direct response to dealer demand. The manufacturers are not forcing cars on their retailers; they are making them because the retailers have discovered that the public demand is going up. The cars that are leaving the factories these days are being sold.

The buying of automobiles on an extensive scale is not a small-change business. If, at last, the market actually is expanding, it augurs well for a substantial pickup in general business.

FIVE MISTAKES OF LIFE

1. The delusion that individual advancement is made by crushing others down.
2. The tendency to worry about things that cannot be changed or corrected.
3. Insisting that a thing is impossible because we ourselves cannot accomplish it.
4. Attempting to compel other persons to believe and live as we do.
5. Neglect in developing and refining the mind by not acquiring the habit of reading fine literature.

He was dirty. That was plain. On his hands were grease and grime.

Common toll had left its stain. Not as deep or black as crime. And I followed just behind.

Little guessing what I'd find. Little dreaming I should hear. Shouts of welcome, loud and clear.

Little thinking I should see. Round his porch white shrubbery. And a window box of flowers.

Just as red and gay as ours.

He was weary. That I knew. All the long day he had toiled. As the task he had to do.

And I saw him how weary turn. Little guessing what I'd learn. For a grass plot green and trim.

Seemed with joy to welcome him. Lovely blossoming peonies swayed. Where his little children played.

And a garden bed was gay. With the colorings of May.

What are grease and dirt and oil. And the weariness man sees. Born of everlasting toil.

But the purchase price of these? Window panes with curtains white. And a happy home at night.

When the whirling turbine ceases. And the things mankind loves best. When the nighttime brings us rest.

I do know that as I grew beyond the years of childhood the stories with obvious morals seemed ridiculous to me.

"They must have been the envy of all red-blooded youngsters. Most of the commuters had no idea that they were in the middle of the most exciting story for long time on the main line of the Erie. They take delays philosophically on the safe-and-sure-to-get-there-some-time old road. No daily traveler would have imagined that life and limb were in any way dependent on the orphanage of the old stone house, pleasantly overlooking the Passaic athletic field, although a sympathetic eye could not fail to notice now and again the alert-looking boys on the grounds under the curved embankment. The names of the train flaggers are interesting as a cross-section of young America: Merlitzek, Murdock, Fleming, Borsche and the brothers Mazzola. By using their heads they prevented an accident that might have orphaned boys and girls in several towns from Passaic up to Suffern. Surely no first-class veteran railroad man could have 'clicked' to the emergency any better than these six boys."

"It reads like a story from a more heroic age than we have thought our own to be," declares the PROVIDENCE JOURNAL, recalling that the boys discovered the danger while looking out of the windows of the train. The Journal also comments: "No judgment of a general on a battlefield was ever more prompt, correct, resourceful or effective than that of these quick-witted and nimble-footed boys. It gives one fresh confidence in human nature to read such an account of youthful heroism. The six boys of the Passaic Orphan Asylum are only a chance sample out of six million in America. We need not fear when the boys of their generation shall have entrusted to them as men the fate of their country."

THE NEWARK EVENING NEWS feels that "Oliver Optic lives again in the Passaic story," recognizing that they "manfully stopped the train," and concluding: "They are due to grow up and marry the boss's daughter. We hope there will be enough wealthy bosses with lovely daughters to go around."

Mrs. Pinchot Gives Her Own Opinions On Factory "Sweatshops"

Wife Of Governor Scores Owners Of Factories For Paying Low Wages Tells Of Conditions Found In Recent Tour In Eastern Part Of State

(International News Service is privileged to present herewith an article on sweatshop labor, written exclusively for International News Service by Mrs. Cornelia Bryce Pinchot, wife of Governor Gifford Pinchot of Pennsylvania and militant crusader against the evils of sweatshop labor.

Mrs. Pinchot recently focussed nationwide attention to sweatshop conditions prevailing in Pennsylvania towns by herself marching in three parades of child pickets at Allentown, Pa. As a direct result of this attention focussed on industry there, three firms involved have since agreed to increase wages and to improve working conditions in their factories, thus bringing about an end of the strikes prosecuted by their employees. A similar settlement of all other strikes in that district is now expected shortly.

Since her appearance at Allentown, Mrs. Pinchot has received hundreds of letters from workers in all sections of the country, beseeching her to investigate the unfavorable conditions existing in their industries and localities.)

By CORNELIA BRYCE PINCHOT (Written Exclusively for and Copyrighted 1933 By International News Service.)

MILFORD, Pa., May 12.—The sweatshop manufacturer is nothing more or less than a racketeer, living upon the funds raised for relief just as effectively as if he broke into the vault in the bank where these funds are stored. That is no exaggeration. Let me show you how it works.

Many of them are paying four dollars, three dollars, sometimes two dollars or even less, for a week's work—full days mind you. The long hours, often overtime, sometimes even work on Sundays. And with every one speeded up to the limit it is obvious that on such a sum, it is impossible for any man, woman or child to live in decency, much less to support dependents.

Have Big Families. In all the interviews I have had, I do not remember a single case where the worker was not contributing to the support of perhaps three or four, sometimes as many as 11 or more members of his or her family with only a few dollars coming in a week.

What can a family do? What

does it do but apply for help to the county relief board, in the majority of cases. Asking for such relief is the last thing the family wants. Indeed, over and over again, they put off applying for help until their health and morale has been broken down until all sorts of diseases associated with malnutrition have started to sap their resistance and that of their children.

Must Have Relief.
When the application does come, however, the relief board is forced to act. The family cannot be allowed to starve, so the help is given, enough to make up the difference between what the wage earner brings in and what it costs that family to keep body and soul together. In other words, the community chest pays part of the manufacturers' wage bill; pays it because it cannot let the family starve.

So you see the sweatshop manufacturers are not only exploiting their own workers, but they are robbing the community as well, by dipping their greedy fingers into the community chest funds and getting the public to carry a definite share of their business obligations.

That is not the only harm they do. The ramifications of their evil practices extend far farther than the immediate communities in which they live; extend to the business life of the country itself, operating to destroy its vitality exactly as the starvation wages they pay operate to break down the health of their employees. For every manufacturer who pays wages so scandalously low that his employees cannot reach what we have come to consider the American standard of living is doing his bit to add to the depression; is throwing his monkey wrench into the machinery of recovery.

No Money to Spend.
It is obvious that no worker of such wages can possibly buy the products of any other mill or factory; no shoes, no shirts, no suits, no hat, no radio, no new car, no gasoline, no coal, no milk for his children, no canned goods and etc. Thus the racketeering manufacturer is responsible for the closing down of more and more factories and so throws a stone into the millpond of industrial life that hits thousands of other businessmen as well as their employees.

And this racketeering manufacturer is not only hurting his community and the business life of the country in which he lives, but he is hurting his own business as well, although he is often so dumb that he cannot see it. His argument is that the best thing that he can do for business is to cut costs to bring down the price of his article he sells. That is the excuse he gives for cutting wages.

What in the name of heaven, however, is the good to him of putting a shirt on the market that can be sold for 25 cents if people are so poor they cannot afford to buy the shirt that he makes?

"Twenty Juices" is a new and scientific liquid compound of EXTRACTS from twenty of the finest medicinal herbs, and not one habit-forming drug. It is taken after meals and mixes with the food in one's stomach, thus throwing off the poisons that foster stomach troubles and permitting the kidneys and liver to function properly. It acts within 10 minutes to stop gas and pain, sourness, bloating and belching. It will not grip or nauseate you like ordinary liver remedies. It will work the bile from the liver as black as ink. At the same time Twenty Juices drives the poisons from the kidneys and relieves backaches, bladder irritation and weakness. Relieves chronic constipation in a few days. Strengthens the nerves by natural means.

Now, whether Twenty Juices will help you as it has thousands of others—whether it will end your suffering in a day or a week—remains to be seen. But in light of what it has done for others, it is surely a mistake not to try it for 25 CENTS, only one-fourth actual cost. This introductory offer is good Friday and Saturday ONLY, so read the rest of this announcement and act at once. Do this in fairness to yourself and your family.

WHAT IT WILL DO

"Twenty Juices" will cleanse your bowels (gradually—not severely) as they were NEVER CLEANSED BEFORE. It will bring out awful gases and impurities (frequently from the first dose), which may have been inside you for a long time, causing you many days of misery with headaches, dizzy spells, skin eruptions and lazy, drowsy tired feeling.

Twenty Juices will relieve acid conditions and make the digestive organs sweet and clean and give complete relief from indigestion.

"Jesus Asserts His Kingship" "Brass Tacks" On The Sunday School Lesson

The Golden Text

Zechariah 9:9—"Behold, thy King cometh unto thee; he is just, and having salvation."

(The International Uniform Lesson on the above topic for May 14 is Mark 11:1-33, The Golden Text being Zechariah, 9:9, "Behold, thy King cometh unto thee; he is just, and having salvation.")

By DR. ALVIN E. BELL
On numerous occasions Jesus discouraged popular demonstrations in his behalf aroused by his admirers. When they sought to take him by force and make him their King, he hid himself and disappeared from their midst.

But as Jesus entered Jerusalem with the Passover crowds the last week of his life he deliberately staged a demonstration calculated to call attention of the nation to his claims of kingship as a descendant of the great King David. But while the pageant he staged was a pageant of royalty, it was a pageant of poverty and lowliness. For he had friends secure for him a donkey's colt upon which he rode into the capital city at the head of a procession of peasants waving palm branches and casting their garments upon the ground before him as they sang, "Hosanna; blessed is he that cometh in the name of the Lord; blessed is the Kingdom that cometh, the Kingdom of our father David; Hosanna is the highest." Right up to the temple with its courts thronged with worshippers he led the demonstration. It was a public announcement of his spiritual kingship over the nation, an appeal to the nation to accept him as its leader.

The Cleansing of the Temple
Reaching the temple he took no action except to "look around about upon all things" and went out to Bethany to spend the night. But what his impressions were of what he saw in the temple we may infer from a proper understanding of his act the next morning on his way to the temple in cursing the barren fig tree which made a great show of leaves but disappointed his hunger with its fruitlessness. It was a symbol of the spiritual barrenness of the nation, prolific in outward show but barren of faith and therefore ready for judgment.

This judgment he began to visit upon them on his return to the temple that very morning as he "enter-

ed into the temple, and began to cast out them that sold and them that bought in the temple, and overthrowed the tables of the money-changers and the seats of them that sold doves—and said unto them, Is it not written, My house shall be called a house of prayer for all nations? but ye have made it a den of robbers. And the chief priests and scribes heard it, and sought how they might destroy him." This attitude proved the nation's spiritual barrenness. Like the fig tree, it was ready for judgment.

"When he came to it, he found nothing but leaves. His judgment upon the nation, as upon the barren fig tree, was, 'No man eat fruit of thee hereafter forever.' The religion of the temple had become commercialized under a mercenary leadership. The 'house of prayer for all nations' had become 'a den of thieves'."

Its missionary interest in other nations had disappeared. The only place allotted to other nations was cluttered up with dove coes and money tables that prayer was impossible in their court. As a testimony for Jehovah to other nations the temple was a barren tree. Therefore the King's judgment. His lesson to his disciples came in the next morning as they looked in amazement at the withered fig tree. "Have faith in God." Not to make you able to wither fig trees, but to escape God's judgment upon spiritual fruitlessness.

Show 235 Students Claim Fine Attendance Records

Exploration Into School
Files Reveals Data;
Figures Surprise

BELIEVE REGULARITY IN CLASSES BETTER

In spite of Shakespeare's famous description of "the whining school-boy, creeping like snail unwillingly to school," some 235 students have had perfect attendance for periods of from one to twelve years. These students are to be highly commended. Each of these students is entitled to either a seal or a certificate from the state, provided they are neither absent nor tardy from now until the end of the semester. George Jones and Bernard Lutz are the only two who have attended school for twelve consecutive years without being absent or tardy. They deserve special credit for their regularity in attendance. Such a record is a splendid achievement.

Record To Envy
The following students have a record of eleven years perfect attendance: Elizabeth Artz, Donald Hackett, and Olga Komarc. Ten years: Bertha Boya, Mildred Dewberry, and Pauline DiThomas. Nine years: Allen Chamberlain, Dorothy Conner, Theodore DeCarlo, James Goodchild, John Komarc, Adolph Lastoria, Thelma Reed, Herbert Sines, and Martha Snyder. Eight years: Doris Bridges, Edith Deep, Flomena D'Elitto, Russel Kawa, Genevieve Moss, Merilynne Blank, and Elmer Gorman. Twelve students have attended for seven years; nineteen for six years; thirty for five years; thirty-two for four years; thirty-nine for three years; thirty-eight for two years; forty for one year.

All those deserving them will receive awards within a short time.

School Orchestra Plays This Week

Music Department Kept Busy
With Two Splendid
Chapel Concerts

The music department of the senior high school under the direction of Joseph F. Replogle has been very active this year. On Tuesday and Wednesday mornings of this week the orchestra entertained the student body with the following program of varied selections and solos:

March, All America (J. S. Zamecnik)—Orchestra.

Calph of Bagdad Overture (Boieldieu)—Orchestra.

Celeste Aida (Verdi)—Trombone solo, Henry Wilkeson with orchestra accompaniment.

Serenade (A. E. Titl)—French horn, George Kyle; flute, William Shira; orchestra accompaniment.

Ave Maria (Charles Gounod), originally Bach's Prelude—Trumpet solo, Arthur Gorman, with orchestra accompaniment.

Last Two Moments from Mendelssohn Concerto—Violin solo by Salvatore Cresci, with orchestra accompaniment.

The White Man, from The Dwellers of the Western World (John Philip Sousa)—Orchestra.

Exit march, Spirit of Independence—Orchestra.

Sunbury Cup Presented.
An interesting feature of the program was the presentation of the cup won by the brass quintet in the state contest at Sunbury. Henry Wilkeson, the only member of the quintet who was in it last year also, presented the cup to Principal Frank L. Orth. This is the second consecutive year that New Castle has won the cup and the boys hope to win it again next year, thus making it the permanent possession of the New Castle high school.

Greenville Delegation Enacts
French Play At Assembly Today

Le Cercle Francais of Thiel college, Greenville, under the direction of Dr. Leonie J. Setchanove, head of the romance language department, presented "Le Malade Imaginaire" by Moliere at the senior high school this morning.

The play was presented in the French language by students in the French department at Thiel. Each year it is customary for Le Cercle Francais to give a French production. This year Moliere's comic satire, which is filled with high comedy and amusing situations, was chosen. The title role of Argan, which Moliere himself played for many years, was enacted by a Thiel junior Joseph Marks.

Some delightful dances under the direction of Miss Elizabeth Holland were presented as interludes throughout the play. The elaborate costumes added to the general effectiveness of the scene. The French play is an educational project in the French department to enable the students to cultivate spoken French with fluency. Dr. Setchanove, the director, holds her degrees from the University of Geneva, University of Rome and University of Paris.

Hospital Linen Supply Must Be An Adequate One

Impossible To Anticipate
Needs Of An Institution
For Year In Advance

JAMESON AIDE SOCIETY ON JOB

Most of us have had experience in care of a sick member of the family at home. Usually the home is provided with a linen supply adequate to the needs of such emergencies. The very nature of bed confining illness in the home usually requires no sterilized linen supply and happily such sickness is usually not a permanent condition but a disorder from which recovery follows in due course.

Usually our home experience with bed sickness is hardly enough to qualify us to anticipate our sick-room needs for illness that is permanent. We do not live in anticipation of total permanent bed-fast disability. We are usually prepared only for the acute illness of limited duration. We would be completely whipped if we were asked to anticipate the needs of a sick bed for 62 years—a sick bed for a person suffering any disorder or injury we might imagine.

This was the problem of the Jameson Memorial Hospital Aide society for the year just closed. Specifically the problem was to prepare and deliver an adequate linen supply to

take care of any hospital patient suffering any disorder or injury for 62 years. The task was more complicated by the fact that this supply had to be delivered for 62 years of sick-bed illness all packed into one year.

Twenty-two thousand six hundred and fifty patient days of bed-confining illness were provided for in the Jameson Memorial hospital in 1932—the equal of 62 years bed-fast sickness for one person. The indispensable linen supply need of this work was met by the Jameson Memorial Hospital Aide society. The linen needs were complicated. No one can anticipate how many pneumonia patients shall have to be cared for or how many abdominal operations or how many new born babies or how many men or women or children. Preparation must be adequate to meet any usual requirement and any emergency. If the linen supply fails, the hospital fails and the Jameson Memorial hospital does not fail.

And our Aide society does not stop with bed linen and operating room supplies. Last year we supplied also buffet covers, coffee bags, dresser covers, tray covers, Hoover aprons, kitchen aprons, kitchen towels, napkins, table cloths, scrim curtains, slip covers and many other items to completely meet hospital needs. Our pleasure is the joy of being useful. JOIN US.

JAMESON MEMORIAL HOSPITAL AIDE SOCIETY.

WYOMING MEN CLAIM BIGGEST ELK HEADS

(International News Service)
RAWLINS, Wyo.—Two Wyoming men recently pressed their claims to ownership of the largest elk heads in the world. Jesse B. Budd of Big Piney claimed the honor with a trophy measuring 56 inches from tip to tip. Dr. J. D. Wilson of Rawlins entered the argument with the head of a bull elk killed in Jackson hole last fall. The animal's head measures 60 1/2 inches on the outside curve.

The discussion was started when Sir Edmund G. Loder of England revealed the dimensions of an elk head which had for years been considered the largest in the world. It was from an animal killed in Wyoming in 1889. Both Budd and Dr. Wilson declare their trophies are larger than that owned by the English nobleman.

HEALTH OF WOMEN IS RATED SUPERIOR

VICTIMS' RELATIVES DEMANDING DAMAGES

(International News Service)

PARIS, May 11—Relatives of the victims of the Georges-Philippas disaster, in which more than 100 lives were lost, have filed a formal complaint against the "persons responsible."

Basing the complaint on the official report which, although withheld from publication, is believed to charge faulty electrical installation, the relatives are claiming damages from the owners of the liner, which burned in the Red Sea in May last year.

They lashed cars up a mountainside TO MAKE THIS BETTER FUEL

PICKED for torture, fifteen automobiles were put through some of the most grueling tests ever devised last August, while a score of noted engineers watched their agonies. The men represented leading automobile and refining companies; they had gathered in the Allegheny Mountains to pool their knowledge in one great experiment. The tests

confirmed ATLANTIC's belief in the supreme quality of ATLANTIC WHITE FLASH. But they also gave clues for further improving this fine fuel. And after months of individual research, ATLANTIC has produced a new fuel... so radically better that only by trying it can you learn what an amazing advance has been achieved.

Thank you for telling us:

"IT IS
POWERFULLY
BETTER!"

Telephones ring. Letters arrive with every mail. Wires carry the message: "The NEW ATLANTIC WHITE FLASH is powerfully better."

We thought you would welcome a fuel of such outstanding quality... but we had no idea your response would assume the proportions it did. We want to

thank you, not only for telling us, but for telling your friends.

You need have no hesitancy about recommending the NEW WHITE FLASH. It is, we sincerely believe, better on every point than any motor fuel ever offered, at or near its price. And you may be assured it will continue to lead in quality!

CLOVER FARM STORES

Rose Avenue P. T. A. Presents Style Revue

A beautiful, picturesque background was the setting for the style show presented Thursday evening in the Rose Avenue school by the New Castle Dry Goods company, under the sponsorship of the Parent-Teacher association.

Mrs. Anna Hamilton presided at the piano as the models gracefully portrayed the latest trend in spring and summer fashions from the stock of the New Castle Dry Goods company and these were worn by Mrs. Ben Agnew, Mrs. Anna Hoffman, Mrs. Louise Stowell, Miss Hazel Roberts, Julianna McCoy, Mrs. Anna Gall, Dulcie, Molly and Jean Cullford, Eleanor Mae McKibben and Mary Campbell.

As the new models stepped from the stage Mrs. Charlotte Emery Taylor played some old time songs, and forth also came gowns of a by-gone day, with Mrs. Earl McKnight in an evening gown of colonial days; Mrs. T. C. Kennedy modeled a dress and bonnet of 1847; Patty Hoffman one of 1849, Mrs. James Chapman displayed her grandmother's wedding gown of 60 years ago, Mrs. E. A. Lutz modeled a wedding gown of

1910. Mrs. W. E. Hughes showed a quaint gown of 1870. Mrs. Manley Bates had an adorable model of 50 years ago, Mrs. S. E. McEntire wore a sport costume of 1900, quite a contrast to the sleeveless, backless sport costume of today; Mrs. Oliver Hazen wore a gown of her mother's, Mrs. James Carr, worn in 1880; Mrs. P. M. McGaffie wore the jaunty morning attire of 1905.

Mrs. P. L. Hagan modeled a sweet girl graduate's costume of 30 years ago and Mrs. J. P. Walters modeled the correct street attire of the gay 90's.

The high school brass quintet, Arthur Gorman, Alfred Sadler, James Kirkpatrick, Henry Wellhausen and Henry Wilkinson, with Mary Long as accompanist, played a number; Bill Fletcher had a baritone solo, and Arthur Gorman a trumpet solo. The orchestra included Billy Davis, Julian Budzowski, Jack Cartwright, David Wehr, Dale Wehr, Billy Gulis and Albert Theophilus, with numbers by Caroline Brenner and Jean Chapman.

Mrs. Anita Brenner was in charge of the program.

SWEETHEARTS WED AFTER FIFTY YEARS

FREMONT, O.—She was a rosy-cheeked miss of 17 and he an athletic chap of 20 when they had a lovers' quarrel and separated 50 years ago. A half century later, meeting by

accident, they recognized each other, became friends again—and were married.

Such is the love story of J. H. Finkbeiner and his bride, the former Mrs. Angeline Coleman, who were wedded here recently. Both now agree that their quarrel 50 years ago was foolish.

SWEDISH KING WINS BATTLE WITH AGE

(International News Service)
PARIS—Kings may totter but popular Gustave V of Sweden seems to go on forever. For more years

than the oldest inhabitant can remember he has been wintering on the Riviera where he spends most of the day indulging in his favorite sport of tennis. After dark functions too, found him fit and ready for amusement.

Arriving in Paris on his way homeward, the royal visitor, 75 years old went straight to the tennis courts in the Bois de Boulogne and had a fine battle with Jean Borotra, famous Basque. He played in a soft gray hat pulled well down over his eyes, white shirt and gray Oxford bags.

PUBLIC WORKS PROGRAM BEFORE PRESIDENT

Fund Raising Plans Considered

President Has Several Courses Open As Means Of Financing Projects

TRADE AGREEMENT ENFORCING PROBLEM

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, May 12.—The administration's plan for recapturing prosperity, by stabilization of industry and a huge public works program, was before President Roosevelt today for a decision on two vital features.

The president faced the problem of determining how to enforce fair trade agreements on industry and how to finance a \$3,300,000,000 public works program. Three alternative plans were submitted.

The most important decision involved the issue of compelling acceptance of stabilizing agreements by sweat-shop units of industry. The three alternative plans for putting a weapon into the hands of the government were:

Plans Presented.

1. A broad processing or occupational tax, to be imposed against an entire industry, with exemptions granted to each unit conforming to the stabilization agreement.

2. A federal licensing of all industries, with revocation of the licenses of any units violating the stabilization agreement.

3. Expansion of the "unfair practice" provision of the anti-trust

laws, to include violations of the proposed stabilization agreements, and criminal prosecution.

Public Works Finance.

On the question of financing the huge public works program, the president faced a choice of:

1. Imposing a small general sales tax on all industrial products with farm products exempted;

2. A tax on tea and coffee, with perhaps a few other excise taxes added, or;

3. A small payroll tax, with no exemptions.

The main provisions for stabilizing industry were agreed upon by the president's advisers. They called for voluntary trade agreements to be negotiated by each industry and touch working hours, minimum wages, child labor, competition price wars or fixing minimum sales prices. A federal business control board would be created to protect the public, suspend anti-trust laws and enforce the agreements.

The public works program appeared settled too, except for the method of financing a \$3,300,000,000 bond issue. The administration was committed to raise \$220,000,000 a year to amortize this bond issue within 20 years, not through general taxation, but by some specific plan of raising new ear-marked revenue.

The person who designed the latest Paris vanity case should receive a medal, and would if women could obtain it for him or her. The powder vanity, lipstick, comb and all the other odds and ends that usually clutter up a woman's purse are all contained in one small case which the French call a necessaire.

School Players To Appear Again

Students Who Have Had Former Roles Will Be In Senior Play

In addition to other students whose part in the senior play, "Seven Keys to Baldpate" has been noted from time to time in these columns, the cast will include Julia McCoy, Bill Bumbaugh, Charles Campbell and Paul Eagan. These four young people are well known in the high school and throughout the city for their various activities.

Miss McCoy is this year president of the Girl Reserves, a senior high school Y. W. C. A. club. Many will remember her for her dancing and singing in the musical shows "Odds" and "Parr." She was in the cast of senior high's "Polly of the Circus" this winter. As a member of the Courtesy and Conduct Club at the big school she has through her active participation and her popularity made a real contribution to the guidance of manners and morals among the young people of the community. She is Mrs. Quimby in the play, elderly wife of the caretaker of Baldpate.

Bill Bumbaugh plays opposite Julia McCoy as Elijah Quimby. He is better known for his prowess on the high school football team than for dramatics. He has, however, already scored a goal in this line by his recent success in "Polly of the Circus."

Bill has other interests as well. He is a member of a local coin club and believes in keeping his name consistently on the school honor roll.

Charles Campbell moved here last spring from Sewickley and in that short time has made himself a popular member of the Class of June '33. He is an honor roll student and yet has had time in several different groups. Through the class in dramatics he secured a place on the cast of "Polly of the Circus" sings in the school glee club, pulls a trigger in Mr. Klee's rifle club, and has a general good time with the boys as a member of the Hi-Y. In "Seven Keys to Baldpate" he is the pompous mayor whose shady politics form the center of the dramatic situation that develop in rapid succession.

Paul Eagan as John Bland is chief

accomplice of Mayor Cargan. He has a lively role and has to play up as a bold, bad thug. "The play's the thing" and Paul makes a first-rate villain though undoubtedly he gets even more sport out of his favorite recreations of basketball and of dancing. However, dramatics is much in his line too: he was one of the successful cast that played in "Polly of the Circus." His academic interests have made him a member of the school commercial club.

This Woman Refuses To Accept Alimony

FEARED CRASH; TOLD FRIENDS GOODBYE

(International News Service) NANTUCKET, Mass.—The day that Ray Morrison, transport airplane pilot, plunged to his death at

the South Dartmouth Airport, he had a premonition of danger. Before taking off here he insisted on shaking hands with old acquaintances, and told J. Leslie Holmes that he wished he had a parachute, said one of his cylinders was weak and his controls were over-sensitive. Morrison reached South Dartmouth safely and in taking off from a height of 150 feet his plane nose-dived and he was killed.

Gets Copies Of New School Laws

Few Radical Changes Have
Been Proposed By Legis-
lative Bills, Syling
Finds

MUST APPOINT AN ASSISTANT HERE

Copies of recent bills affecting the school code, which were passed by the recent legislature, have been received by County Superintendent of Schools John C. Syling.

There are few radical changes in the laws, Mr. Syling stated, and many of the measures passed have not as yet been signed by the governor.

There has been no change in the law governing the appointment of an assistant for Lawrence county, and one will have to be appointed by June 8 to fill the vacancy caused by the resignation of Assistant Superintendent Clare B. Book.

Salaries of all superintendents and assistants were reduced by the legislature.

Some counties which had more than one assistant superintendent will lose them under the new enactment, which provides for one assistant for counties having from 150 to 550 teachers. Those having more than 550 and less than 1,050 are entitled to two assistants. There are more than 300 teachers in the Lawrence county schools.

The salaries of superintendents and assistants in the county are paid by the state.

SULPHUR ADVISED FOR WEST TOURISTS

(International News Service)
DENVER—To thoroughly enjoy an early vacation in the Rocky mountains, first sprinkle your underclothing with sulphur.

This is the suggestion of Dr. George W. Stiles, bacteriologist in the government bureau of animal industry here.

Dr. Stiles pointed out that Dermacentor Andersoni, otherwise known as the Rocky mountain wood tick, notorious spreader of spotted fever, abhors sulphur. The tick generally disappears after June.

Two Women Suffer Bullet Wounds As Result Of Holdup

Lucerne, Indiana, Bank Is Held
Up, Woman Bandit Uses
Machine Gun

(International News Service)
LUCERNE, Ind., May 12.—A woman bank bandit sprayed a crowd with machine gun bullets during a spectacular attempt by a gang of robbers to hold up the Lucerne State bank here Friday.

Two women spectators were wounded by the machine gun fire. About 40 shots were exchanged between the bandits and the bank officials.

The wounded were Miss Ethel Witters, 20, who was shot down in front of the bank when the female bank bandit turned a machine gun loose on a crowd that had gathered following the first exchange of shots, and Mrs. Doris Minor, 24, who was hit while dressing in her bedroom at her home near the bank.

Wild Excitement
The wildest excitement prevailed in the town as the machine gun

splattered a leaden hail along the street.

The bandits escaped in a cloud of gunsmoke west along state road 16. There were two battles between the robber gang and bank officials. The first one occurred within the bank.

Everett Gregg, 48, cashier, and Lawson Zelders, 24, bookkeeper, were alone in the bank shortly after the bank opened this morning. Zelders was working inside the vault and Gregg was at an adding machine near the vault.

Shots Exchanged
Gregg was turning to enter the vault, when suddenly a gun was poked in his face from a storage space above the vault. He looked up in astonishment and saw a rough, bearded face of a stranger back of the gun. The man was lying on top of the vault.

The cashier dived into the vault in spite of the bandit's command to stick up his hands.

Immediately the gunman jumped down from the top of the vault and was followed by another desperado. Both started firing point blank into the vault.

The bank employees grabbed guns kept in the vault and started shooting back.

Woman Shoots.
The two gunmen then rushed out of the back door of the bank. They were seen getting into a small sedan containing two women.

The bandit car disappeared but

showed up within a block of the bank.

By that time a crowd of 15 or 20 persons had gathered in front of the bank.

Ruthlessly one of the women bank robbers pushed a sub-machine gun out of the window of the outlaw machine and raked the crowd with a stream of lead.

(International News Service)
LOS ANGELES, Calif.—Recalling the pioneer days of California when differences among men were often settled in pistol duels, W. P. Blake, 53, an inventor, challenged Herman Miller, his attorney, to a duel.

Blake claimed Miller had failed to obtain a patent for an invention on a method of making honeycombs from cellophane. Blake is a bee-keeper.

The inventor was arrested under a statute nearly 100 years old, which forbids duelling.

WHY MILK WAGON HORSES WERE TIRED
 (International News Service)

DENVER, May 11—Sleepless nights for milk wagon horses of a local dairy were recently ended when humane officers shot three dogs. Morning after morning the horses were too tired to pull the wagons when they were hitched up. Investigation revealed that the three dogs crept into the pasture at night and annoyed the horses until the latter were too tired to do their day's work.

Pure science, as against applied science, is the desire to know and understand regardless of any immediate practical end to be gained.

Fraternity "Horseplay" Brings Fire Of Westminster Student Paper; Editor Is Sent Lettres

(Special To The News)
NEW WILMINGTON, Pa., May 12—Declaring that fraternity informants are "childish," "out of date," and "crude," an editorial appearing in the Holcad, Westminster College student paper, in the last issue receives many replies from indignant fraternity men in the issue which came out this week.

The editorial which drew the fire of campus fraternities carried the title, "Wanted—Intelligence." Pointing out the possibilities for physical harm in rough informal chapter initiations, indicating that traditional "horseplay" has disappeared from colleges, the editorial ended by saying, "When will they wise up?"

Much comment was elicited on the campus following the appearance of the editorial, particularly since three of the five fraternities had just completed "hell week" for freshman men. One letter to the editor, signed, "An Active," indicated that only fraternity pledges could answer the question as to whether or not informal initiations were harmful. This reply claimed to be based on a survey of pledges.

A second letter, signed, "The Croaker," ended by saying, "As to our fraternity policy, it is 'hands off.' We will tend to it. Let your editorials be turned to a better cause, of which there are many."

Freshman women residing in Browne hall sent a communication to the editor supporting the writer of the editorial. The coeds declared that initiation of the freshman men interfered with dating, and that noises made by first-year men who were supposedly singing were distracting during study periods.

This week's issue carries another editorial, in reply to the communications received. It points out that if fraternity members have so much time on their hands, they might turn their efforts to constructive campus activities.

Further Attack Hurlled Against Railroad Plans

Carl R. Gray, President Of Union Pacific, Says Roosevelt's Plan Won't Work

BIG SAVINGS CAN NOT BE EFFECTED

(International News Service) WASHINGTON, May 12.—Conflict of interest between the railroads and their employees is "inevitable" under the administration's emergency railroad reorganization plan, Carl R. Gray, president of the Union Pacific system, told the Senate interstate commerce committee Thursday.

Opposing labor representation on the regional coordinating committee set up under the bill, Gray stated "I don't believe anything can be accomplished by that." Testimony offered by Donald R. Richberg, counsel for the railroad labor executives association, was "based on false premises," he said. Richberg had said the bill proposes to accomplish "the impossible."

The labor situation raised by the administration's plans to coordinate the nation's rail facilities was described as "very difficult for us and for the employees."

"The matter of greatest importance in this bill is the requirement that the coordinator study the railroad situation and recommend to Congress," he testified. "It would stop some of the very wild statements that are being made."

Senator Couzens (R) of Michigan, asked what wild statements the witness had in mind.

"I mean with respect to the savings that can be effected," Gray explained. "I don't believe \$100,000,000 annually can be saved. The coordinator will explode a great many theories."

Slippery Rock Grads Get Jobs

Three From Lawrence County Included In List Of Students To Get Schools

TWO WILL TEACH IN RURAL SCHOOLS

SLIPPERY ROCK, Pa., May 12.—Forty students have been placed for next year in teaching positions according to Dr. L. H. Wagenhorst, Chairman of the Placement Committee, of State Teachers College, Slippery Rock.

Some of these students are last year's graduates, others are two and four-year seniors this year, and a few are sophomores who will qualify for the Limited Certificate. In addition there are several Liberal Arts college graduates who are getting credit for practice teaching in the elementary field at Slippery Rock.

These placements are scattered among twelve different counties, nine students going to Westmoreland, seven to Mercer, five to Armstrong and Allegheny each, three to Butler and Erie each, and one or two to Venango, Lawrence, Cambria, Blair, and Crawford.

"Considering the times and the

fact that many school boards have not yet elected," said Dr. Wagenhorst, "this number indicates a fairly good demand for teachers."

The students placed included: Anne Carrick, Hickory township, Lawrence County; Frances Duncan, Little Beaver township, Lawrence County and Clark McClelland, Roring Spring, Blair County. McClelland is a New Castle boy and starred in athletics at Slippery Rock.

(International News Service) ELDON, Mo.—Four truckloads of surprised fish—38,000 of them, swam around in the Lake of the Ozarks trying to orient themselves after a ride from Sandusky, O., their birthplace.

The fish, 12,000 perch and 16,000 blue channel cats, were obtained from the state of Ohio in exchange for 10,000 trout, which will be taken from Bennett Springs.

PLANS MADE FOR MAY DAY AT COLLEGE

Westminster Coronation Ceremony To Take Place Saturday, June 3, At Six

(Special To The News) NEW WILMINGTON, Pa., May 12.—Coronation of Miss Louise Johnston, Farrell, as May Queen at Westminster College will take place on Saturday evening, June 3, the Y. W. C. A. cabinet, sponsors of the ceremony, announce. This event will

be one of the first of the commencement season, will take place on the South terrace of the campus, and will be followed by the traditional senior sing.

Miss Johnston will receive the crown from Miss Ruth Wagoner, Sharon, last year's queen. Miss Wagoner has selected the following senior women as her attendants: Annabel Stevenson, Bellevue; Sara Elizabeth Long, Bellefonte; Kathryn McClure, New Wilmington; Doris Shawkey, Polk; and Elizabeth Macklin, Bessemer. These were the same attendants to Miss Wagoner last year. A sixth attendant, to take the place of Dorothy Bingham, Bellevue, who is ill, will be announced later.

Miss Johnston's attendants are: Jane Baker, Pittsburgh; Marjorie Glass, Oil City; Grace Kelly, West Middlesex; Jean Mankelick, Gregg;

Esther Caghey, Ben Avon; and Elizabeth Newell, Ambridge. Miss Johnston's attendants will wear white organdy dresses with colored sashes and tiny organdy hats. Miss Wagoner's attendants will wear colored organdy dresses in pairs. Miss Johnston will wear a long-sleeved ivory satin dress with white organdy sash and tiny organdy hats. Miss Johnston will be dressed in a white satin gown trimmed in lace.

WORLD LIGHTHOUSE WILL TAKE PLACE OF EIFFEL TOWER

(International News Service) PARIS.—The celebrated Eiffel Tower has probably had its hey-day. Plans for one of reinforced concrete, more than twice the heights of this well-known tourist attraction have

been prepared by a famous French engineer, M. Freyssinet, and the "Lighthouse of the World," as it will be named, may be seen at the great 1937 Exhibition which is to be held in Paris. Thus, it will repeat the sensation caused by the Eiffel Tower in 1889.

The latter is 300 metres, or about 984 feet high, and the proposed new one would be 700 metres, or nearly 2,300 feet in height. The engineer estimates that it could be built for less than one-half the cost of the first tower.

Recruiting for Uncle Sam's forestry corps has been slower than was expected, but not from dearth of volunteers, but because of the government's ultra-"choosiness". Qualifications are not quite the same as for the army, but nearly as exacting.

West Pittsburg Team Held
Scoreless After First
Inning

Bessemer won from Garlands of West Pittsburg in the National division of the Lawrence county league by a score of eight to four Thursday at West Pittsburg. Bessemer scored three in the first and this would have been sufficient to win as Garlands were unable to score after the first inning.

A. Braykovich started on the mound for West Pittsburg but gave way to Tonsetic. D. Nord hurled the seven innings for Bessemer. He was wild at times and five men were walked. He fanned four batters.

Peerless Batters Unable To
Reach W. Soho With
Effect

Polish National alliance turned in their third consecutive victory yesterday when they defeated the Peerless-Ryantown combination 5 to 1 in the National loop of the Lawrence circuit. The Polish Nationals and Tigers of the West Side are tied for the leadership of the division.

W. Soho was in excellent form. He allowed only five hits and fanned six batters. Campbell allowed eight hits, two of which were doubles by J. Soho and Ostroski. Otto got a double off W. Soho. He was wild at times and as a result three batters were given free walks. Fruitt, S. Baker and A. Baker staged a double play.

THIS DETECTIVE FOUND HIS MAN

CLEVELAND—A classic in detective work is that accomplished by a detective of Cuyahoga County. For two weeks, the sleuth sought vainly for Frank Brancato, a suspected gangster. After spending many fruitless hours in scouring old haunts of the "fugitive," it was revealed that Brancato had surrendered at county jail and had been sentenced to a term in the Ohio penitentiary.

Smashing every bird, G. D. Baldwin, West Chester, won top honors in the 100 target singles of the registered shoot at the York, Pa. Gun Club. He smashed all the birds, Steve Carothers, Chestnut Hill state

HOPE TO RAISE
ABOUT \$220,000,000

(International News Service)
WASHINGTON, May 12.—Presi-
dent Roosevelt and his leaders on
Capitol Hill virtually agreed Thurs-
day to impose either a special or
general sales tax to support a \$3,-
000,000,000 bond issue for financing
a public works program.

The sales tax will be fixed to
raise about \$220,000,000 thus guar-
anteeing amortization of the public
works bonds within 20 years.

Employment Tax.
The sales tax will be called an
"employment tax." It has the ap-
proval of organized labor and the
American Federation of Labor.

The new public works program
will be written into the adminis-
tration's bill, proposing federal control
of industry. The control sections
will create a federal control board
with power to negotiate agreements
in any industry for limiting hours
of work, fixing minimum wage
scales, outlawing child labor, elimi-
nating wasteful competition, abol-
ishing price wars and maintaining
price levels.

The president favored imposition
of a general tax, either a sales tax,
a production or processing tax or
an occupational tax, to give the
government some power over recalcitrant
units of an industry. The
power would be exercised by ex-
empting such units from the tax
as conformed to any agreement hav-
ing the government's approval.

No final decision has been reached
on the control tax. It may be the
administration will extend the pro-
posed "employment tax" now con-
templated for the refinancing of the
public works bonds to include control
of industry.

INFLATION

May 11, 1933.

Mr. Editor:
Meaning of Inflation has been a
favorite expression in current
conversation in recent weeks. What is
the meaning? Is it retiring in the
evening or arising in the morning?
At present it is rather an unsatis-
factory word as commonly used and
rather a wide range of meaning.
Going off the Gold Standard con-
stitutes inflation. Issuance of large

quantities of Paper Money may have
some meaning and rising prices of
commodities another. Inflation is a
condition characterized by a large
increase in the volume of money or
of bank credit without a correspond-
ing growth in the volume of busi-
ness.

Inflation may also come from an
increase in the velocity on turn-
over of money and bank deposits
as well as from an enlargement in
their volume by turnover. The num-
ber of times deposits change hands
during a given length of time. In
1929 deposits in leading cities turned
over about forty-five times a year.
In 1932 about sixteen times a year.
Is inflation desirable? That is a
much disputed subject. Certainly
some method of raising the general
level of prices would benefit busi-
ness and would ease the burdens
of the creditor classes. The farmer
would find it much easier to pay

the interest on his mortgage with
wheat worth eighty cents a bushel
than with wheat at half that price.

The business man who has taken
large losses on his inventories of
goods in recent years due to falling
prices would welcome a reversal of
that trend and here is where we all
feel this effect. When prices are
falling the business man buys as
little as possible, thinking that he
can obtain better prices by waiting,
but when prices start to rise there
is an inducement to buy without
further delay in order to avoid the
chance of paying higher prices later
on. We may confidently expect
that our paper money will be so
managed and controlled that the
rise in commodity prices will aid
business but that any dangerous in-
flation will be avoided.

Respectfully yours,
G. D. GLOSNER.

**HOW TO GET
RID OF ACID STOMACH**

According to many authorities,
some 80% of the people of today
have acid stomach. This because so
many foods, comprising the modern
diet, are acid forming foods.
It usually makes itself felt in
sour stomach, indigestion, head-
aches, nausea, "gas," "biliousness,"
and most frequently in stomach
pains that come about thirty
minutes after eating. So you can
easily tell if you have it.

Now Quickly and
Easily Corrected

If you do have acid stomach, don't
worry about it. You can correct it
in a very simple manner. Just do
this. It will alkalize your acid
soaked stomach almost immedi-
ately. You will feel like another person.
TAKE—2 teaspoonfuls of
Phillips' Milk of Magnesia with a
glass of water every morning when
you get up. Take another teaspoon-
ful thirty minutes after eating. And
another before you go to bed.

**PHILLIPS'
Milk of Magnesia**

Neutralizes Food and Tobacco Acids a few
minutes after taking.

What This Does

That's all you do. But you do it
regularly, EVERY DAY, so long as
you have any symptoms of distress.
This acts to neutralize the stom-
ach acids that foster your "upset"
stomach, that invite headaches and
that feeling of lassitude and lost
energy.

Try it. Results will amaze you.
Your head will be clear. You'll for-
get you have a stomach.

BUT—be careful that you get
REAL milk of magnesia when you
buy; genuine PHILLIPS' Milk of
Magnesia. See that the name
"Phillips" is stamped clearly on
the label.

ALSO IN TABLET FORM:

Phillips' Milk of Mag-
nesia Tablets are now
on sale in drug stores
everywhere. Each tiny
tablet is the equivalent
of a teaspoonful of Gen-
uine Phillips' Milk of

Pittsburgh And Cleveland Lead Baseball Leagues

Pirates And Indians Show Way To Other Clubs; Yanks Forced Out Of Lead

LINDSTROM IS FEATURE HITTER

By LES CONKLIN
International News Service Sports Writer

NEW YORK, May 12.—New York had the baseball blues today. Their American League representatives, the world's champion Yankees, found themselves out of first place for the first time this season, except for a couple of hours during a double-header last Sunday. The Giants' second in National League scramble, snuffed a golden opportunity to advance to within striking distance of the leading Pirates yesterday.

The Yankees, idle yesterday yielding their top perch to the Cleveland Indians, who beat Boston again. The Giants, meeting the Pirates for the first time this season, played sordid ball in losing a 7 to 6 slugfest with a highly dramatic finish.

Harris Saves Day
In the ninth inning the Giants knocked Heinie Meine out of the box. There were two out, the bases were jammed and the Giants needed one run for a tie up to the plate stalked a pinch hitter. It was George Uhle veteran relief hurler and pinch hitter who had won many a game with a timely blow during his 14 years in the American League.

New York must release one player by next Monday and Uhle may be the man. Here was his chance to win the game and clinch his job. But George could not fathom the delivery of Bill Harris, Pirate relief pitcher. Like the immortal Casey, he struck out, lost the game and maybe his job.

Carl Hubbell, southpaw ace started for the Giants and tried to win his own game with a homer and four doubles, but was handicapped by four errors by his mates. Fred Lindstrom, former New York star, made three straight hits against his old pals and stole a base.

Pirates Lead
Pittsburgh now leads the Giants by three full games.

Mel Harder, one of Cleveland's five crack right-handers pitched, and betted the Indians to a 4 to 1 win over Boston. He held the Sox to six hits and helped himself to a homer and a double.

Francis Xavier O'Doul, of Brooklyn, National League batting champion who recently emerged from a protracted hitting slump, had a perfect day at bat with a homer and four singles and drove in five runs as the Dodgers outslugged Cincinnati, 7 to 6. Paul Derringer, former Cardinal making his first start for the Reds, was nicked for twelve hits, but had the Dodgers licked until the ninth when hits by O'Doul and Flowers beat him.

Cardinals Win
Wild Bill Hallahan, receiving dazzling support from the Cardinals' infield, annexed a 2 to 1 decision over Hucks Betts of the Boston Braves for his fourth victory of the campaign. A homer by Medwick and hits by Allen, Watkins and Wilson produced the St. Louis runs.

Scoring all their runs on homers by Mellillo and Gullie, the St. Louis Browns nosed out Washington, 4 to 3, and dropped the Nats into fourth place. West's double and Gullie's homer in the ninth did the business. The revival hurlers were Bump Hadley and Wally Stewart, each pitching against his former club.

Other games were washed out.

New Castle Cards Attractive Games On Grid For 1933

New Castle High Cards 11 Football Games; Three Away

Six Night Games Will Be Played Here; Scott, Sharon, Chaney New Ones

Ralph H. Gardner, faculty manager of athletics at New Castle High School today announced the completed New Castle High football schedule for this fall. The program contains eleven games. Three games will be played away from home. Five of the games listed here are night games. The new comers on the schedule are Braddock, Chaney of Youngstown, Scott High of Toledo and Sharon.

Four Class AA Conference teams are on the schedule as follows: New Kensington, Charleroi, Turtle Creek and Washington. The first three teams will be met away from home. It will be remembered that New Castle tied with McKeesport and Jeannette High last year for the conference championship. New Castle hopes to win the title this fall.

Scott High Coming
The grid program as mapped out by Gardner is one of the most attractive ever carded. It brings the famous Scott High of Toledo team here for a game Saturday Nov. 18. Chaney High of Youngstown, one of the strongest of the Youngstown schools will be on the card playing the final night game here October 27.

A couple of old rivals return to the schedule Butler High for an Armistice Day program, and Sharon High for Thanksgiving Day classic. Braddock High the leadoff team is a new one. Ellwood City will be back for the second game with a much stronger team than last year, according to Coach "Gangy" Benedict. Union High coached by Dave Boyd will be met by New Castle in a night venture on October 6, this being regarded as a strictly New Castle game and with lots of rivalry. Union gave New Castle real competition last year.

Washington High an old favorite will be back for a night game October 13.

Coach Phil Bridenbaugh has a lot of hard work to perform between now and September 15 when Braddock High comes to Taggart field. New Castle looked good in the two spring games, but still not quite what Phil thinks they should, and it is a safe bet that by the time fall arrives that Bridenbaugh will have his mind pretty well up.

Material Is Good

It is hoped that New Castle High can get to camp again at Muddy Creek Falls, for a week of conditioning. This is the spot where football players are made.

New Castle's team this fall will contain the Shelloys brothers, Raszkowski, Howley, Miles, Perrett, Sorokowski, Humphrey, Palkovitch, Lane, Nickum, Jones, Anderson, Captain Komonic, Kneram, Fleming and Pascarella as well as many others, and with all of the boys having had experience, Bridenbaugh hopes to mould a team that will waste thru the tough schedule and bring New Castle High another W. P. I. A. L. championship.

The completed schedule is as follows:

Sept. 15—Braddock at New Castle, night game

Sept. 22—Ellwood City at New Castle, night game

Sept. 29—Charleroi at Charleroi, night game

Oct. 6—Union High at New Castle, night game

Oct. 13—Washington at New Castle, night game

Oct. 21—Turtle Creek at Turtle Creek, night game

Oct. 27—Chaney at New Castle, night game

Nov. 4—New Kensington at New Kensington, night game

Nov. 11—Butler at New Castle, night game

Nov. 18—Scott Toledo at New Castle, night game

Nov. 25—Open permanently

Nov. 30—Sharon at New Castle, night game

Pittsburgh To Honor Wagner

"Honus Wagner Day" In Pittsburgh June 9 Promises To Be Big Event

(International News Service)
PITTSBURGH, May 12.—Pittsburgh, his home-town, will emulate the seven other National League cities in honoring Honus Wagner, baseball's all-time shortstop and present Pirate coach, a belated fete.

The Carnegie Elks Lodge of which he has been a member for more than 20 years today were drafting plans for a "Honus Wagner Day" in honor of the Buc coach. The ceremonies which will include a parade and banquet are scheduled for June 9. Prominent political and athletic figures from many Western Pennsylvania towns have accepted invitations to the party.

Tri-State Coaches Turn To Activities For Summer Months

Coaches in Tri-State conference colleges will go in for a variety of summer activities, a survey shows. Studying, teaching, coaching, camping, preaching and vacationing are a few of the fields of occupation for the summer months.

Coach John D. Lawther of Westminster will probably spend most of the summer in New Wilmington, but will teach basketball at the Davis and Elkins summer session coaching school for "Cam" Henderson. Lawther will present basketball technique at sessions during the week of August 21.

Loeffler Going West

Kenneth Loeffler, Geneva basketball mentor, will, after taking his bar examinations in Pittsburgh, be employed on a Wyoming ranch for the summer.

James Robertson, new grid coach of the Covenanters, will continue to work at his insurance business in Pittsburgh.

Coach Robert Park of the Geneva track team will be the preacher at the Reformed Presbyterian church in Grand Pre, Nova Scotia.

Jack Stoebor, athletic director and coach at Thiel, will take graduate work at Columbia university where he is completing studies for the M. A. degree.

D. C. McEuen and H. McClure Burrows, track coaches at Grove City, will teach in the summer sessions at Grove City.

Bill Amos, Grover grid coach, will spend the summer on vacation.

Robert Thorn, athletic director and court mentor, will spend most of the summer in Grove City in connection with his duties at the college.

John Knight, Bethany coach and director, will attend two or three coaching schools during the summer months.

STROLLING TO

Familiar Faces Cluster About Ellwood City Ring

SHELBY ARENA

Remember Al Watson, the referee? Sure you do. True it may be that you haven't seen him officiate for years but he's alive, very much so and he's dabbling still in the Biff and Bang game. Met Al at the Shelby arena, Ellwood City, Wednesday.

Al referred many fights at Beaver Falls and being as tough as the fighters' emblems Al didn't have much trouble getting them to break at his command.

He handled several of the Beaver Valley entries at the Ellwood City amateur show, which in our way of thinking, was put over rather nice. It was worth the mazuma—and more.

And there was Bert Gates! Remember Bert? He has refereed and managed baseball teams. It may be that he is not quite so well known to the young folk in this city now. He is a real sportsman.

After some attaches of the county's boxing profession had been introduced, we met Bill Henderson and asked: "Say Bill, talk about old-timers, you're included in that category."

We remember, if recollection serves accurately, of either refereeing a fight or having a charge in a fight in which the Ellwood City man was concerned.

Stepping from a restaurant we saw an old friend, Charlie Strauss. He was a bantam-weight ball player and he's an umpire now.

Apparently this judge of boxing, J. J. Daugherty, is never going to grow old. He looks as young now as when he was carrying Ellwood's battles in the Lawrence county league.

We had the pleasure of occupying a chair along the ringside and our next neighbor was Chuck Cox, Ellwood sports writer. Chuck is booming baseball these days in Ellwood vicinity. He's grown stouter.

Joe Latiano, the matchmaker, was here and everywhere. No one can better than the writer appreciate the thousand worries of a matchmaker.

Freddy Rubock, the Ellwood City reporter for The News, was hustling around helping Joe, Tillman Sneden and Ben Rocco, who had charge of the show.

There were quite a few of the leaders in various businesses of New Castle in the arena. They like their fighting. They enjoyed the scraps, judging from what they told the writer.

Among those from here to return with a smile was Tommy Leach. He took Tony Adamo, a brother of the middleweight Nick, and Tony won the scrap which gave Tommy cause for elation.

Wonder what are the thoughts of George Chip, former king of middleweights, as he pries boxers loose and that both get a fair deal. There's one thing, he knows what a good clout means.

After the New Castle contingent had returned here Chip and the writer discussed George Rocco. Both agreed he looks better now than Emmett did with the same length of ring service.

There was a something about that kid Morini that made one like him. He's young full of dash and vinegar and judging from the way he went at things Fight is his middle name.

And by the way if Jimmie Jackamo was missed around Oak and Ray streets it can be proved that he attended the bout. He's the big boy people formerly "mistook" for Tony Ross.

Broker's Tip Will Get Test Saturday

Colonel Bradley Confident That Broker's Tip Will Repeat Derby Victor

Expect Great Race In Running Of Preakness; Head Play Entered

By DAVIS J. WALSH
International News Service Sports Editor

BALTIMORE, Md., May 12.—Broker's Tip will do it all over again—if the track isn't bad. It will be easier this time—if the track isn't bad. In fact, he'll run away from the rest of them and hide.

These statements aren't mine. They are, in round numbers, the word that Col. E. R. Bradley sent into town ahead of his arrival for the running tomorrow of the greatest Preakness of many years.

Favor Head Play.
In that race will be Broker's Tip, the horse that beat the derby field last week, and Head Play, which should have won but didn't; also Ladysman, Pomponius, Kerry Patch and other minor characters in that stirring stretch run which saw the leading riders reach across the horses to bicker and scratch like two huskies in a tantrum.

The embittered riders are out but better men are in. A Robertson on Head Play and Jimmy Smith on Broker's Tip; the field has some fresh factors and altogether it seems inevitable that the dream of Churchill Downs must repeat itself, if not go further. Many feel that Mrs. Silas Mason's Head Play can't miss tomorrow with a better rider. Others contend that the derby was not a "true" race for any of the horses. And Bradley answers both by saying that Broker's Tip is pounds the better horse and will prove it—if the track isn't bad.

Track Is Heavy.
The point is that the track won't be good. It was heavy this morning. Showers were scheduled for today and tomorrow is uncertain. In all, it looks like mud at post time for the big race at 13-16 miles, with the result that Silent Shout, Dark Winter and other pronounced mud-drawers seem certain to go. The rest of the field probably will be Head Play, Mr. Khayyam, Good Advice, and others.

Watson-Chocolate Bout Postponed
(International News Service)
NEW YORK, May 12.—Seaman Tom Watson, premier British featherweight who was to have met Kid Chocolate in a title bout at Madison Square Garden tonight, was asked today by the week's postponement granted because of the Cuban's stomach trouble. Watson, pointed for a fight tonight, disliked the idea of training for another week.

Monarchs And Orrs Deadlock

Gray Driven Off Mound In Second, Gunnett Wild In Third

After Orrs had got to Homer Gray in the second inning on the Lehigh field yesterday, the Colored Monarchs sent Garside to the hill. He hurled good ball and the National division, Lawrence league game ended in a three-three tie.

Gunnett allowed only three hits but he was wild in the third and before the inning was over the Monarchs had scored three runs, deadlocking the game. Neither team was able to score from then on.

In the third Paige singled, Hill worked a free trip and Wise doubled. Bradley worked the second walk off Gunnett and a play resulted in a fielder's choice all of which went for three runs. After that Gunnett settled down.

Shaw, Gray and Wise poled extra base hits. Shaw and Rech played a good game in the field for Orrs and Adams and Paige starred for Monarchs.

Canton Team Is Much Impressed

New Castle High School football team, townspeople, and football fans have made a big impression on the Canton McKinley High officials and they are very desirous of renewing football relations with New Castle High. They even wanted on the 1933 schedule in the fall, but Gardner had to disappoint them on this score, as the card was already filled. However, Canton is almost a certainty for the 1934 schedule.

The night spring game whetted their appetites for more of the same kind of tough competition that New Castle provided. Canton came here almost cocksure of victory. Coach

Jimmy Aiken just as much as said so. They had practiced all winter long in the Canton High gym, had scrimmaged, they wanted to beat New Castle. They almost did. New Castle got the jump in the first period and held the advantage.

But, getting back to the story, Canton liked New Castle real well. The Ohio boys think that New Castle has a real football plant. A fine group of fans, and were very profuse in their praise of the courtesy received in Pa. Newe's city. And New Castle would like to have more teams like Canton play here. It's a fact.

Rains Have Been Bad For Golfers, Good For Courses

Local Golf Courses Are Rounding Into Wonderful Shape This Year

Rains during the past week have been hard on the golfers but have brought the local golf courses along in wonderful shape.

A visit to the Muncy course last evening, developed the fact that the ground was much too soggy for good golf, although there were a few intrepid players out on the course. The grass was in wonderful condition, however, and will be long to-day as it will be impossible to get out with the mowers until the ground dries up a little more.

One of the most needed improvements at the course this year was completed during the past week, a tile drain having been laid down through the fairway of No. 11 hole. There has been a deep gully at this point, which is about at the end of an average good drive. The gully will be filled up with top soil and grass will be sown.

Although the fairways are still a little soggy, most all of the greens at the Muncy courses are in wonderful shape, the same condition existing at the other courses.

Pearson A. C., Pearson Married Men and Pearson Juniors are in a mulligan league. The Married Men beat the Juniors recently 19 to 16 in a 13 inning game. The marathon contest was played at Dean park.

Two Scheduled Games Saturday

Probability Is Several Postponed Games Will Be Played

No games are scheduled in the Lawrence County league as yet for today but it is probable there will be several games which have been postponed arranged for Saturday afternoon. Weather conditions have jolted the schedule considerably since the circuit opened early in May.

Saturdays regular games follows: National loop—Mahoning A. A. at the Monarchs field and Volant at Brent.

Heroes—Goats In Big League

(International News Service)
The heroes—Frank O'Doul, Dodgers, and Ted Gullie, Browns. O'Doul had a perfect day at bat against Reds with homer and four singles, driving in five runs. Gullie's homer in ninth beat Washington, 4 to 3.

The goat—George Uhle, Giants. Bating as pinch hitter in ninth inning against Pittsburgh with bases full, two out and one run needed to tie, he struck out.

For a first course for dinner serve fruit cup sweetened with shaved maple sugar.

Market Is Rather Irregular
However, Telephone Goes
To New High

(International News Service)
NEW YORK, May 12.—The stock market turned irregular today under successive waves of profit-taking resulting from the uprush of the last few days.

The bulls threw support in the list, however, and checked the reaction after initial losses of 1 to 2 points.

Utilities gave the best performance under the leadership of American Telephone, which went to a new high for the move. Some of the rails like Chicago & North Western and Atchafalaya were higher.

Leaders like Steel, Allied Chemical, General Motors, Du Pont and others ruled a point or so lower and recovered only part of their decline.

Trading continued at a furious pace and the ticker lagged a good part of the forenoon.

Commodities followed the pattern of stocks with the trend lower on profit taking. Bonds were firm with the exception of the German issues. The dollar was relatively steady.

Board Fails To
Elect Teachers

To Acquire Special Permis-
sion Of State Superin-
tendent To Cut
Salaries Again

TO ASK ADVANCE IN
STATE APPROPRIATION

ELLWOOD CITY, May 12.—Due to a special restriction in an act recently passed by the state legislature the Ellwood City Board of Education was unable to elect its teachers for the next school term.

The act permitted all school boards to cut salaries ten per cent. Additional reductions were permitted with the approval of the state superintendent. Since the board is contemplating reducing salaries 10 per cent more or a total of 20 per cent, a special resolution had to be passed to this effect by the board and sent on to the state superintendent.

The Educational committee recommended that this be done and that an adjourned meeting be held on Friday May 19 to elect the teachers.

In order to meet future payrolls the Board of Education voted to ask for an advance in their state appropriation. A signed affidavit to this effect and financial statement of the school district will be sent to the state department.

Election Officers
A number of school officials were elected at this time. G. Blaine Hancher was elected secretary of the board and custodian over all school equipment by unanimous vote.

Charles Jackson of the People's National Bank was elected as school district treasurer and Dr. W. G. Evans as the School Medical Inspector by unanimous vote.

The request of a number of teachers who are leaving the school system to receive all money due them will be granted by the board if the money is available at that time.

No action was taken by the board on the request of former Tax Collector T. A. E. McConahy to exonerate him from some personal tax assessments amounting to over \$900.

Mr. McConahy stated that he had paid this sum out of his own funds during the squabble with the former tax collector. He had expected to get this sum back by collection but had failed and therefore was asking for exoneration from the board.

A. Evans stated that the board did not require McConahy to do this. Their only concern was in either getting the money due in taxes or obtain a satisfactory excuse.

The board voted to transfer a sum of \$250 from one fund to another in order to meet some important bills. One, a sum of \$150 for the state tax and \$100 for improvements at Lincoln field. The Athletic committee headed by James Fitzgerald reported that the field is in fine shape and its value greatly increased since its improvement. He announced that equipment for the football season had already been purchased at a low rate. The money expended for the next season was less than for the last.

Supt. Vaughn R. DeLong made his routine report and announced the results of several achievement tests given here in the elementary grades. A favorable report of the scrip, or certificates of indebtedness, was heard at this time. It was pointed out that practically all merchants are accepting the scrip, who state that business has been decidedly stimulated.

In connection with the election of school teachers J. A. Evans declared that no teacher should be rejected unless his or her school tax is paid.

Local Gas Station
Victim Of Robbery

Attendant, Clair Marion Is Rob-
bed Of \$19 By Five
Men Last Night

ELLWOOD CITY, May 12.—Local and state police today are on the look out for a large sedan bearing Indiana license with six wire wheels bearing five men who were perpetrators of robbery here about 10:30 last night.

The above car drove up to the Shell Gas station on the corner of North street and First avenue and in a clever manner robbed the station of \$19 in small bills. The sedan drove up to the lower pump and a man got out and asked the attendant, Clair Marion, of this city, while Marion was putting the gas into the tank the man went into the station. When the gas was in the car he came out and announced to Marion that he had left twenty five cents on the counter. The man immediately got into the car and drove it away.

The attendant went into the service station and proceeded to place the quarter in the cash register and to his amazement found that all the money had been taken. He promised to find his employer and some 20 minutes later called the local police. Patrolman Edwin Clarke and Chester Young are investigating the robbery. Upon questioning Marion it was found that the mysterious car was last seen going up North street. Marion was able to give a description of only the one heavy set, of dark complexion, and wore a mustache. Surrounding communities were given a description of the car and robber.

On Table By Board

School Directors Fail To Take
Action On Resignation Of
Mrs. J. C. Turner

ELLWOOD CITY, May 12.—The resignation of Mrs. J. C. Turner as head of the playground commission of this city was laid on the table by the board of education at its monthly meeting last night in the Lincoln school.

The directors were of the opinion that the playground is too valuable an institution to drop altogether. They were of the hopes that the commission would not be abolished altogether, but carry on again when it became possible.

Annual Gathering At Wurtem-

Affair

ELLWOOD CITY, May 12.—Once again successful in every detail was the annual mothers and daughters banquet held by the members of the Mary Braeden circle of the Wurtemburg U. P. church in the church rooms last evening.

The first feature of the evening was the serving of a delicious menu by Misses Adah Graham, Irene Falen, Elizabeth Caughey, Lavee Hooker, Amy Ketter, Maize Falen, Jean Wimer and Frances McElwain, who were directed by Mrs. Harry Hazen. The dining room had been cleverly transformed into a bower of beauty and the tables, at which the places were arranged for perfect color scheme of green and yellow. Lighted tapers and baskets of spring buds added to the beauty of the scene which was created by Miss Frances Mehard and Mrs. Donald Hepler.

The invocation was given by Mrs. J. E. Caughey who later introduced Mrs. James Springer of Beaver Falls as the guest speaker. The speaker gave a very interesting address on the great and effective influence of the lives of women in political, national and religious problems. She concluded by giving Temple Bailey's Parable to Mothers.

A musical romance, "The Joy of Life," was then presented by the Kitchen Cabinet Orchestra composed of the circle who demonstrated their ability as musicians with every imaginable kitchen utensil they were able to produce musical tones. The orchestra members were gayly bedecked in band suits ornamented with spoons. Mrs. J. E. Caughey as leader caused a riot of laughter.

Prizes were presented to Mrs. Laura Weller as the oldest mother in attendance and to Mrs. Charles Frazier as the mother present with the most children.

A full measure of credit for the successful affair is due Mrs. Francis Kirk, Mrs. M. H. Huber, Mrs. James Hazen, Mrs. R. G. Campbell, Mrs. E. H. McMunn and Mrs. Rodger Elliott, who prepared the banquet and Mrs. Harry Wimer, Mrs. Victor Koach, Mrs. J. E. Caughey and Mrs. R. H. Kirk, who were in charge of the program.

New Castle News
WASHINGTON, D. C., May 12.—The United States Patent Office has just awarded to Carl H. Leis of New Castle the patent rights on a multiple cutter milling machine of his own invention.

Mr. Leis applied for the patent Dec. 5, 1929, and was forced to wait for more than three and one-half years for recognition. He has been allowed protection on six novel features of the invention and has assigned his rights to the Johnson Bronze Company of New Castle. The Patent Office describes the invention as:

In a multi-spindle milling machine for working continuous material, a table, a cutter head mounted on rods slidable in said table, a shaft journaled in said table, an eccentric on said shaft, a cross head secured to said rods and a pitman connecting said eccentric and said crosshead for reciprocating said head, on oscillating lever pivoted to the table, a crank on said shaft engaging a slot in said lever for oscillating the latter, a ratchet and pawl intermittently actuated by said lever for feeding material, a plurality of rotary cutters mounted on said head with their axes in a horizontal plane and at an angle to the path of travel of said strip, and a motor on said head for driving said cutters.

The soul, which is spirit, can not dwell in dust; it is carried along to dwell in the blood.—St. Augustine.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

If you lost a pigeon back in 1895, Cliff James has found it. Not that it would be much good to you now, but you never can tell. And then you might want the leg band you had on it. It's a good leg band, gold, with blue enamel set in it.

Cliff is the custodian of the court house and had occasion to clean out the clock belfry yesterday. Maybe it had been cleaned out since 1895 before, but that isn't important. The thing is he cleaned it out yesterday. And found the skeleton of a pigeon.

On the leg of the skeleton was a leg band that indicates it was no ordinary pigeon. The band looks like a baby's ring and set in it in enamel is the date 1895 and the identification number C722. The C might stand for Carrier, or it might stand for Charley.

Now they are trying to work up a good story for the pigeon around the court house. Some of them think it might have been an army pigeon carrying messages, although there wasn't any war at the time. Still others think it might have been a

blue blooded pigeon entered in a long distance race and flew into the clock belfry out of a storm.

Uncle Sam is going in for new trucks in a big way these days. Seventeen of them, big sturdy looking vehicles, went through New Castle Thursday afternoon, headed by a couple of New Castle motorcycle policemen. Looked as though they might have been intended for transportation for forestry service recruits.

Just to prove to the scoffers that the hailstones of Tuesday night's storm were the size of rocks, Jack Boyle and Jewey Coen took some pictures of the icy things and you should see them. For the purpose of contrast, Boyle's watch is placed in the middle of a pile of them and the hail are as big as the watch.

Stories are still floating in of the damage of the storm but thus far no one has reported a cow with a black eye as the result of being socked by a hailstone.

We must be turning the corner. The sucker lists are in use again by the huge pressure stock boys who will tell you how to double your money in thirty days. For a long time now the mails have been clear of this stuff but "happy days are here again" for the stock dopesters.

They are modest however. All they do is show you how to make 15 or 20 per cent. They tell you how to invest your money in the stock market, what ones to switch to at the proper time, what to buy and what to sell. They tell you everything except what you are going to use for money.

**Special Theme
For Dr. McClure**

In the First Presbyterian church Sunday evening, the pastor, Dr. W. E. McClure, will preach on the theme "Ezekiel's Valley of Dry Bones."

The sermon will deal with many of the promises made in both the Old and New Testaments about the eternal care God will exercise over the Jew.

The morning sermon will be on the theme "A Famous Hebrew Mother, Jochebed." This being Mother's day, the morning service will be of special interest to mothers.

Joint School Program At Bessemer Tonight And Union
Next Wednesday

At a joint public concert in Bessemer tonight the bands of Bessemer and Union high school will unite to give a musical program fitting to the observance of music week.

Robert Duff is director of the Union band while Joseph Martin is leader of the Bessemer group, and tonight they will together direct the organizations in a performance for which they have been rehearsing for weeks.

On Wednesday evening, May 17, the same program will be repeated at the Union township building. This joint concert, which will be free to the public, has been planned partly as the contribution of these two schools to the celebration of music week, and partly to demonstrate the feasibility of a music festival, in which all the schools of a county might participate, thus either supplementing or superceding the present system of music contests.

**STREET NAME PROBLEM
REMAINS UNSETTLED**

Agreement has not yet been reached on a final name for a Southside street now called Miller avenue, the name of which a group of property owners of the district would have replaced by "Pulaski street." Several weeks ago a move to make the change was opposed.

The name Pulaski would honor Casimir Pulaski, famed Polish general who gave patriotic service to America during the World War.
